

Recommendations from the Sensitization Seminar on the Work of the International Seabed Authority held 28th -30th March 2011.

Seminar recommendations

1. Improved regional collaboration in performing Marine Scientific Research in the Caribbean:
 - Seafloor mapping
 - Marine Geology
 - Marine Biology
2. Expanded international participation in the region - i.e. provision of resources; personnel, assets (ship, ROV, AUV).
3. Additional capacity building efforts through the ISA Endowment Fund.
4. Economic evaluation of resources (marine mineral) in the Caribbean region.
5. To improve better understanding and implementation of the United Nations Convention on the Law of the Sea, which is the framework treaty for all activities in the oceans and seas.
