<i>General Comments</i>		
<ul style="list-style-type: none">• The objective of this guideline, provision of a checklist to assist efficient document preparation is very helpful in order to avoid duplication among tremendous amounts of information. On the other hand, if any template is to be established later, it may overlap with the checklist.• The definition of “qualified and effectively controlled applicant,” which is shown in the Draft Regulation 5 (3) as required information to be contained in the applications for approval of Plans of Work, is not clear.
