<i>General Comments</i>		
<ul style="list-style-type: none"> <li>• We would like to express our deep gratitude for such tremendous efforts made by the Legal Technical Commission members and the ISA Secretariat for the development of standards and guidelines required to be established in parallel with development of exploitation regulations.</li> <li>• As it is stated in the guidelines that the “assessment framework for Mining Discharges as set out in the Guidelines (Mining Discharge Guideline)”, it would be helpful if it is informed when the Mining Discharge Guideline will be prepared.</li> <li>• The guidelines need to be restructured as there are some reference numbers that are not used (e.g. Section 3.5.1, Section 0, and etc.).</li> <li>• Some of abbreviations on the list are not used in the document (e.g. EITI, EI, and SMS).</li> </ul>		
<i>Specific Comments</i>		
Page	Line	Comment
3	166	Delete “the” as there are two “the.”
4	195	What is “Guideline 2”?
9	391	Permanent monitoring is not realistic to be conducted by a Contractor.
12	518	Correct “to for”
14	616-617	It might be “Exploitation” not “Exploration”
<i>Additional rows can be added to this table by selecting “Table” followed by “insert” and “rows below”</i>
