3 , Appendix1	55	" at the sole discretion of the Authority beyond the terms of the Exploitation Contract " is too arbitrary and one sided, The guiding principles for Guarantee beyond the terms of the Exploitation Contract must be defined ahead of the commencement of the contract.
3 , Appendix1	88-93	The guarantee is to 'cover unexpected costs' it is too subjective. Generally there should be a cap on such costs in the terms of percentage of the total contract value.
6 , Appendix1	160	(a) Competent and independent. Does any prior approval is required? Objection to the selection of the independent validator at a later stage may lead to complications.
7	227	Mitigating measures have to be designed by the contractor?
11	383	Any guidelines for setting up of the audit parties?
