Twenty-seventh session

Kingston, 13–15 July 2022

Item 11 of the provisional agenda*

Status of the Working Capital Fund

Status of the Working Capital Fund

Report of the Secretary-General

1. In its resolution [ISBA/3/A/9](#), the Assembly of the International Seabed Authority established a Working Capital Fund in an amount that represented approximately one twelfth of the approved budget. The Assembly also decided that advances to the Working Capital Fund would be made in accordance with the scale of assessments adopted by the Assembly for contributions of members to the budget.
2. The Working Capital Fund is intended to meet the day-to-day budgetary expenses of the Authority in the event that member State contributions at the time of use are insufficient to cover its expenses. As soon as sufficient funds are available, the borrowed funds are to be reimbursed to the Fund. Payments made by members of the Authority are to be credited first to the Fund and then to the contributions due, in the order in which the members were assessed.
3. Over the years, as the budget of the Authority has increased, the amount of the Working Capital Fund has also increased to \$750,000, with the most recent increase of \$90,000 approved by the Assembly in 2019, on the basis that the increase would be spread evenly over the next two financial periods, to be determined using the Authority's current scale of assessments.
4. As at 30 April 2022, the balance of the Working Capital Fund was \$692,695, with an amount of \$57,305 to be collected in the financial periods from 2022 to 2024.
