### DECISION OF THE ASSEMBLY RELATING TO THE BUDGET OF THE INTERNATIONAL SEABED AUTHORITY FOR 2000

The Assembly of the International Seabed Authority,

Taking into account the recommendations of the Council,<sup>1</sup>

1. Adopts the revised budget of the Authority for 2000<sup>2</sup> in the sum of 5,275,200 United States dollars;
2. Decides that, in order to enable the Council to complete its work on the draft mining code during 2000, there should be two two-week sessions of the Authority in 2000, without prejudice to the future work pattern of the Authority;
3. Decides also that, in view of the commitment shared by all members to carrying out the work of the Authority expeditiously, in particular to the adoption of the draft mining code during 2000, and the need to streamline the work of the Authority, in the organization of work for the sixth session, priority shall be given to the work of the Council on the draft mining code and the meetings shall be structured as follows:
  - (a) The agenda for the first part of the session shall be devoted to consideration by the Council of the draft mining code. To further advance the work of the Council, the Secretary-General will consult with the incoming President of the Council and with the regional groups and interest groups with a view to identifying the main areas of difficulty in the draft code and the most efficient working method which would enable the outstanding issues to be resolved;

Appeals to the members of the Authority, including those States which are no longer members of the Authority following the termination of provisional membership on 16 November 1998, to pay the arrears in their contributions to the budget of the Authority for 1998 as soon as possible, and requests the Secretary-General to inform the members of the Authority of this appeal;

8. Decides further that, for 2000, the Secretary-General is authorized to transfer from part 1 to part 2 of the budget as necessary in order to enable the Authority to hold two two-week sessions in 2000, and between appropriations sections up to 30 per cent of the amount in each section;

9. Decides that, should the funds in the Working Capital Fund prove inadequate to meet the shortfalls in cash flow, the Secretary-General is authorized to utilize, in 2000, available funds under his custody up to a limit of 10 per cent of the approved budget for 2000, provided that such borrowed sums shall be reimbursed as soon as contributions or advances are available;

10. Decides also that advances and contributions shall be due and payable in full within 30 days of the receipt of the communication of the Secretary-General requesting payment, or as of 1 January 2000, whichever is the later;
