

## **Template for the review of the draft standards and guidelines associated with the Draft regulations on exploitation of mineral resources in the Area**

### **I. Background**

1. The Draft regulations on exploitation of mineral resources in the Area ([ISBA/25/C/WP.1](#)) require that certain issues are addressed in accordance with, or taking into account, standards and guidelines to be developed by the organs of the Authority. The standards will be adopted by the Council and will be legally binding on Contractors and the Authority, whereas the guidelines will be issued by the Legal and Technical Commission or the Secretary-General and will be recommendatory in nature.
2. Stakeholders consultations are an integral part of the process decided upon by the Commission for the development of the standards and guidelines ([ISBA/25/C/19/Add.1](#)).
3. The Legal and Technical Commission will consider the comments received through the stakeholders consultation at its next session.
4. The drafts include a cover page containing substantive background and contextual information on the approach taken by the Commission in developing each standard and guidelines. Review comments are not being sought on this background information.
5. Issues of format and consistency across the standards and guidelines will be reviewed by the secretariat and Commission once the content of the various standards and guidelines is finalized following stakeholders consultations.

### **II. Submitting Comments**

6. To ensure that your comments are given due consideration, please send them by e-mail to [ola@isa.org.jm](mailto:ola@isa.org.jm), at your earliest convenience but **no later than the date announced on the ISA website for the relevant draft standards and guidelines**.
7. When submitting comments, please adhere to the following guidance as much as possible:
  - a. Please provide all comments in writing and in an MS Word .doc or .docx format using the table provided below.
  - b. The table format allows for an unlimited number of comments to be added. To add more comments, you may add more rows.

- c. Please provide full contact information for the individual/Government/organization submitting the comments.
  - d. Please avoid commenting on issues related to format, grammar, spelling or punctuation, unless it affects the overall meaning of the text, as the document will be formatted and edited when the final draft is prepared.
  - e. To facilitate the revision process please be as specific as possible in your comments. In areas where you feel additional or alternative text or information is required, please suggest what this text may look like or what information should be included.
  - f. Text may be copied from the draft into the table if stakeholders wish to use "track changes" in editing text (this is encouraged to ensure accuracy and avoid numbering errors).
  - g. If you refer to additional sources of information, please include these with your comments when possible or provide a complete reference or hyperlink.
  - h. All review comments will be posted on the ISA website, unless otherwise requested by the submitting entity.
8. Should you have any questions regarding the review process, please contact [ola@isa.org.jm](mailto:ola@isa.org.jm).

### III. Template for Comments

- 9. Please use the review template below when providing comments.
- 10. Line and page numbers have been provided in the drafts. Please use these as a reference as illustrated in the table below.

<b>General Comments</b>		
e.g. The draft should include...		
e.g. Term ... should be used consistently throughout the draft		
GSR is pleased to participate in this stakeholder consultation related to draft standards and guidelines.		
The flow diagram is very much appreciated. Ideally it would include all the available information on timings contained in the draft regulations to increase its usefulness (e.g. acknowledgement and preliminary review by the Secretary-General is noted as occurring in 14 days in the draft Regulations). A number of timings on the flow diagram are potentially subject to change. We are sure it goes without saying that these will need to be updated if the Regulations are updated.
