1. The Authority, sponsoring States, the Enterprise, Contractors, flag States and the States of registry of or having authority over installations, structures and other devices shall within their respective competence take necessary measures to ensure effective protection of the Marine Environment from harmful effects which may arise directly or indirectly from Exploitation in the Area, in accordance with Regulations, Standards and taking into account Guidelines referred to in regulation 45 and the relevant Regional Environmental Management Plan and to this end shall, as applicable in their respective areas of competence:

(i) Apply the precautionary approach and the ecosystem-based management approach to the assessment management and prevention of risk of harm to the Marine Environment from Exploitation in the Area;

(ii) Apply the Best Available Techniques and Best Environmental Practices;

(iii) Integrate Best Available Scientific Evidence in decision-making;

(iv) Ensure accountability and transparency in the assessment, evaluation and management of Environmental Effects and risks from Exploitation in the Area

(vi) Ensure that damage or hazards are not transferred to the marine environment and that one type of pollution is not transformed into another one. This is especially related to avoiding toxic, persistent and bio accumulative substances.

2. No regulation in this Part shall be interpreted as preventing sponsoring States, the Enterprise and Contractors from taking, individually or jointly, more stringent measures in accordance with codified and customary based international law with respect to the prevention, reduction and where practicable elimination of detrimental effects on the marine environment.

**5. Please indicate the rationale for the proposal. [150-word limit]**

The title of this regulation is “General obligations”, therefore it should focus on general obligations and it is suggested to delete the content which is not related to this subject. China has made further changes on the basis of the version provided by the intersessional working group.
