

ISA 29th Session, Part II – Reading of the Draft Consolidated Text

Oral Statement by the Federal Republic of Germany

Delivered in July 2024

Regulation 106 - Settlement of disputes

Like others, we do not believe the proposed edits on para 1 are necessary and would therefore prefer deletion. Paragraph 1.bis, on the other hand, is a useful addition. We look forward to considering drafting of the UK and NL for this para. Finally, in para 2, we disagree with the proposed edit to add “affected thereby” at the end and would like to see this omitted.
