

ISA 29th Session, Part II – Reading of the Draft Consolidated Text

Oral Statement by the Federal Republic of Germany

Delivered in July 2024

Regulation 93 - Notice and general procedures

We propose a new para 1 as follows: “This regulation shall apply to all Communications by and with the Authority”. Here, “Communications” is with a capital “C”, since this is now defined in the Schedule, having been moved from the original paragraph 1.

We believe para 2 can be deleted, because the remainder of the regulation, including paras 6 and 7, would cover this anyway. In any case, we wonder whether communication should always be in writing and therefore question the red text in paragraph 2. To reflect that, paragraph 3 could start with the following wording: “All Communications must be made in writing and served [...]”.
