1. Name(s) of Delegation(s) making the proposal:

Republic of Nauru

2. Please indicate the relevant provision to which the textual proposal refers.

Annex III bis

3. Kindly provide the proposed amendments to the regulation or standard or guideline in the text box below, using the “track changes” function in Microsoft Word. Please only reproduce the parts of the text that are being amended or deleted.

~~An [environmental Impact Assessment]~~ Scoping Report shall include the following:

[...]

(i) A preliminary impact analysis which categorizes the important issues into high-risk, medium-risk and low-risk for the Environmental Impact Assessment to address and evaluates the need for further information, taking into account the Environmental Risk Assessment;~~;~~ ~~[which includes;~~

~~(iii) A description of the cumulative effects of the project, combined with other authorized, anticipated, or expected activities and; actions, or natural phenomena;~~

4. Please indicate the rationale for the proposal. [150-word limit]

It is important that the preliminary impact analysis in the Scoping Report is appropriately focused so that it is useful and covers its contents at a proper level of depth. Requiring applicants to include “anticipated” and “expected” activities would be a broad and unclear requirement that would require applicants to predict potential future scenarios that may be irrelevant or mere hypotheticals.

As such, we would suggest limiting sub-paragraph (i) (iii) of Annex II bis to refer to authorized activities and actions and natural phenomena.
