ISA's E-Learning Platform

*Call for applications
ISA Deep Dive e-learning platform
Fifth Cohort
January to March 2025*

General presentation

The International Seabed Authority (ISA) is inviting interested individuals to apply to the first, second and third levels of the [Deep Dive](#) programme, Dive 1 and Dive 2, Dive 3 until **15 November 2024**.

Developed within the framework of the [ISA Capacity Development Strategy](#), Deep Dive is the first and the only e-learning training platform exclusively devised to address all elements of the legal regime in Part XI of the United Nations Convention on the Law of the Sea (UNCLOS) and the 1994 Implementation Agreement, including technical and scientific aspects.

Deep Dive is designed to enhance the capacity of practitioners from Member States, including developing States Members of ISA, young graduates, personnel of partner institutions or other relevant stakeholders to understand and implement the legal regime of the Area and the different elements pertaining to the conduct of activities in the Area.

The Deep Dive online curriculum has a modular structure with three progressive levels: Dives 1, 2 and 3. Each comprises modules that offer a mix of compulsory and elective lessons to ensure the successful transfer of foundational knowledge and a degree of flexibility to accommodate personal preferences.

THREE DIVE LEVELS

Dive 1

Module 1:
UNCLOS and the
Governance of
the Area

Dive 2

Module 1 and TWO other modules chosen from the other four:

- Module 2: Marine Mineral Resources of the Area
- Module 3: Marine Scientific Research
- Module 4: Protection of the Marine Environment
- Module 5: Technology Development

Dive 3

All 5 modules.

Dive 1 fits the needs of individuals with little knowledge of the legal regime of the Area. It comprises a mandatory module on UNCLOS and the governance of the Area. It will guide students through the key features of the concept of the common heritage of humankind, the fundamental principles governing the Area, the role, functions and mandate of ISA, and the objectives of sustainable development of the Area and its resources.

Dive 2 has been designed to address the needs of individuals with some basic knowledge of the legal regime of the Area and the work of ISA but in need of further knowledge on specific aspects. It includes a mandatory module on UNCLOS and the work of ISA and a choice of two other modules.

Dive 3 has been designed to address the needs of individuals with more advanced knowledge but in need of further professional development to ensure full grasp of all areas pertaining to the UNCLOS and its Part XI, including marine scientific research, protection of the marine environment, methodology and use of technology activities in the Area. It includes all the modules as mandatory requirements.
