

Living Heritage, Legal Imperatives:

Integrating Indigenous Participation into Deep-Seabed Governance

Join **Maui Nui Makai Network** and **Ocean Vision Legal** for a discussion on the vital intersection between the lived experiences of Indigenous Peoples and their stewardship of the deep Ocean, and the binding obligations on States under international law regarding Indigenous participation.

Featuring Indigenous leaders, community knowledge holders, and legal experts, the event will explore how Indigenous knowledge systems, Free, Prior and Informed Consent (FPIC), and States legal obligations should shape decision-making at the International Seabed Authority.

The event will also launch a series of policy briefs on strengthening Indigenous participation in global Ocean governance.
